

fd. Hotel Accounting.

**Real time financial insights,
for efficient hospitality.**

Our online software platform, set-up and run by hospitality finance professionals, brings all your financial and non-financial information together to provide live dashboards to help you improve your performance.

Part of the
frenchduncan.
family.

FEATURES

- Highly automated, real time and customisable
- Income, banking, accounts payable, accounts receivable – all fully integrated and automated
- Integrated business analytics
- Robust control environment
- Integrated budgeting and forecasting
- Scalable – local, national and global
- USALI compliant

OUTPUTS

- USALI format – detailed management accounts
- Dashboards and business analytics
- Fully managed payroll
- Daily flash reports available on mobile devices
- Detailed monthly performance reports / management accounts
- Benchmarking
- Balance sheet
- VAT
- Budgeting and forecasting

BENEFITS

- Immediate performance appraisal from up-to-the-minute data
- Benchmarking highlights areas for review and improvement
- 24/7 report availability, in line with how your business operates
- Save time through integration of systems
- Robust outputs which always align
- Improvement actions can be assessed quickly

ALL OVERSEEN AND MANAGED BY:

Trained Accountants

Who work with you every day to learn your business

Who can focus on improving your business, not just getting the numbers right

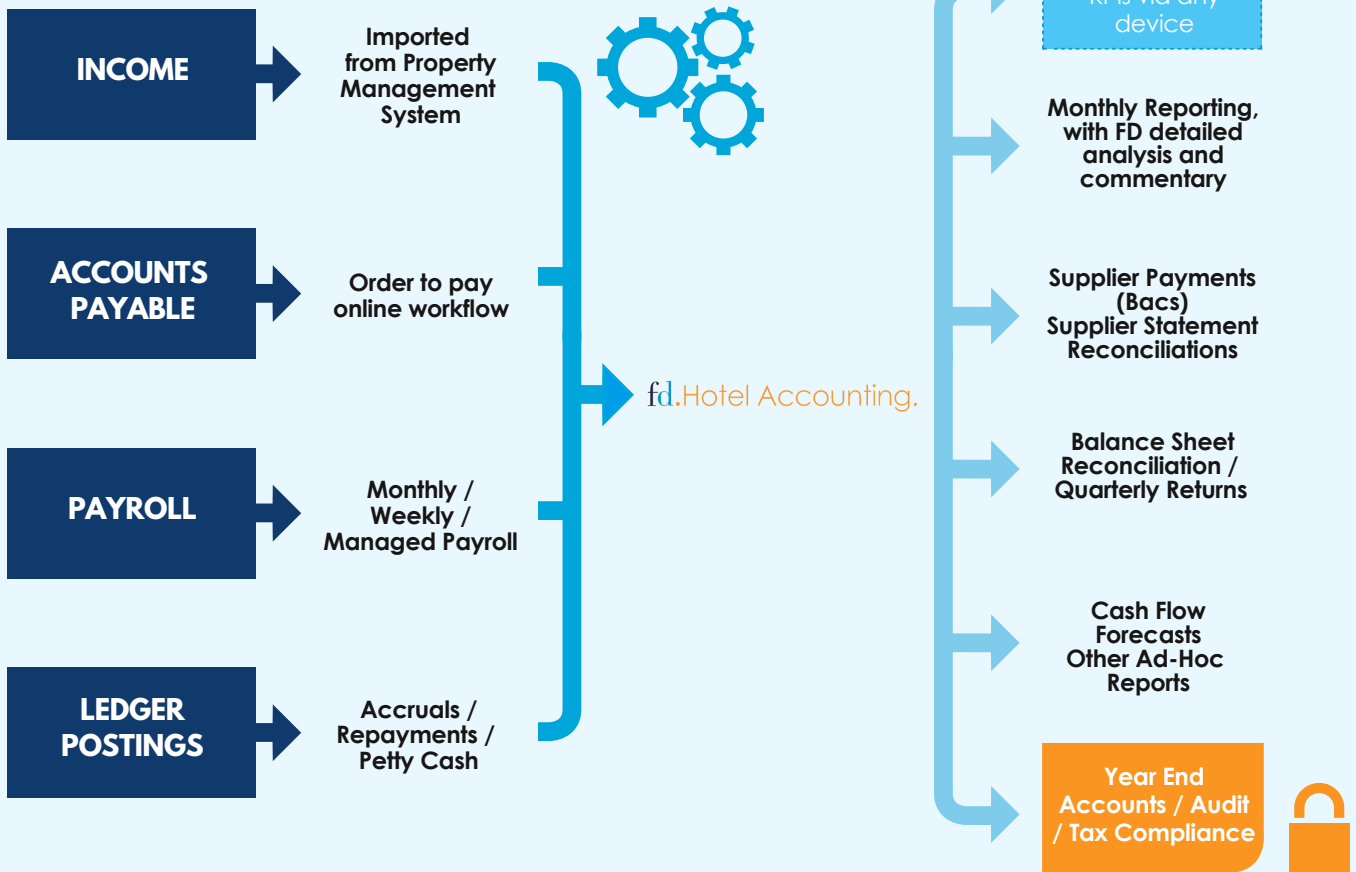

Experts in the Hotels Sector

IN A COMPLETELY SECURE DATA ENVIRONMENT

 Hosted in Microsoft Azure Cloud

 Fully encrypted with two-factor authentication for remote access

We provide you with daily flash reports and financial insights, to help you with effective decision making in real time.

Our systems can store data from different sources:

- Financial data
- Non-financial data – statistics (rooms/covers)
- Competitive set – STR index

Which provides you with:

- Cost per occupied room P&L
- Benchmarking – comparison by brand family, brand, owner, area.
